NEW YEAR SMILES AS HULL DENTAL EDUCATION

CHARITY GOES BACK TO SCHOOL FOR 2023

Happy New Year to all from the Teeth Team staff. After schools reopened last week, we have been busy restocking our Teeth Team schools, preparing for dental assessments and guiding staff through delivering classroom daily tooth brushing for 2023.

We are excited to be back in schools this week and helping to deliver a programme that really benefits pupils and their dental health.

Thousands of children from 23 primary schools across Hull, the East Riding, Lincolnshire, North Yorkshire and Nottingham, benefit from the school-based supervised tooth-brushing programme. Teeth Team also provides clinical dental assessments, applications of fluoride varnish and the subsequent signposting for accessing primary and secondary dental care.

It is a collaborative working partnership between local dental practices, schools, and parents in an effort to improve the dental health of children, predominantly in socially deprived areas.

Chris Groombridge, Chair of Teeth Team since its inception in 2010, commented: "We are looking forward to the new school term and returning to the classrooms to continue rolling our vital programme out in the 23 schools we help.

"The work that Teeth Team does to support the dental health of children is providing a real benefit to their lives and the Teeth Team trustees are totally focussed on ensuring the charity really works to help and benefit all the children signed up."

If you would like to support Teeth Team, then please visit www.teethteam.org.uk for further information.
